TUBORG

Q: What is Software Crafting?

Q: Tobi, talk duration?

A:

“20 goal time, bis 30 geht aber meist aber **ab 30 guck ich grimmig und gestikuliere** :)”

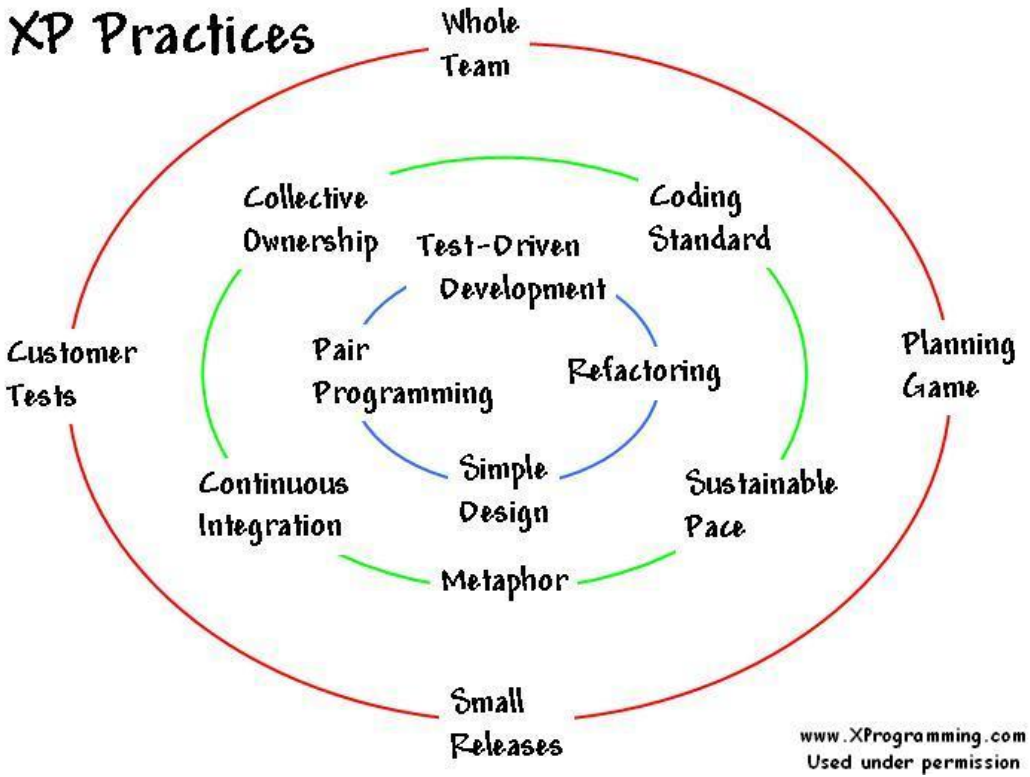
Three concepts

1.- Deliberate practice

"*H*ighly structured activity designed with the specific goal of improving performance."

Q: Ok, but practicing what?

A: i.e.:



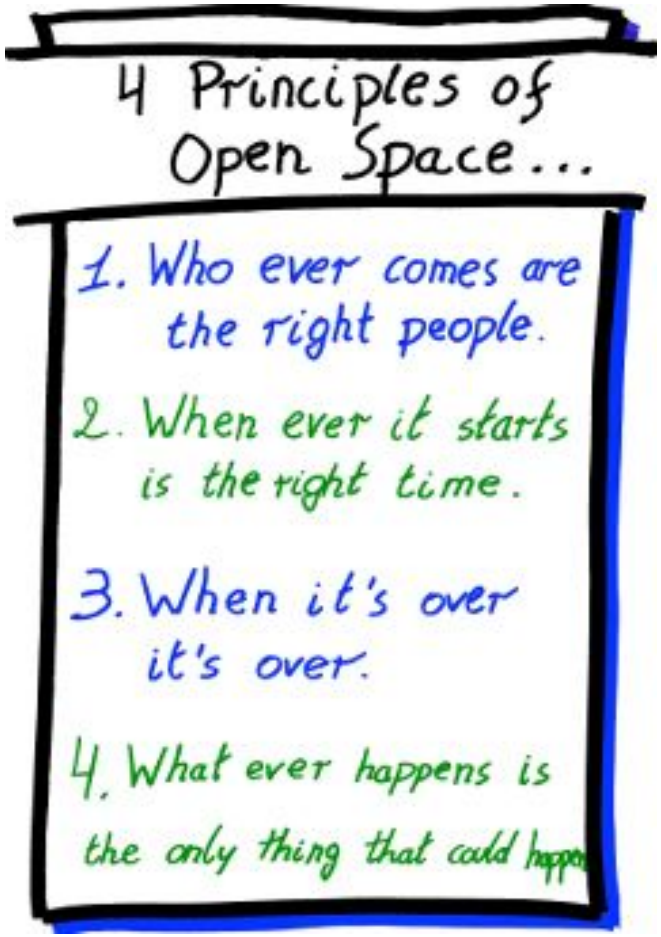
XP Practices
Whole Team
Collective Ownership
Coding Standard
Test-Driven Development
Customer Tests
Pair Programming
Refactoring
Planning Game
Continuous Integration
Simple Design
Sustainable Pace
Metaphor
Small Releases
www.XProgramming.com
Used under permission

Q: So, is Software Crafting rebranded XP?

A: No

2.- Open Space Technology

“One way to enable inspired meetings & events.”



4 Principles of
Open Space...
1. Who ever comes are
the right people.
2. When ever it starts
is the right time.
3. When it's over
it's over.
4. What ever happens is
the only thing that could happ

BUMBLEBEES AND BUTTERFLIES

Claudio Perrone

3.- Apprenticeship

“System of training a new generation of practitioners of a profession with on-the-job training and
accompanying study.”

Apprentice > Journey-level crafter > Master

Apprenticeship
Patterns
Guidance for the Aspiring
Software Craftsman

What is Software Crafting?!

A: It's not...

Software Engineering

A: It's not...

Anti-agile

A: It's not...

(just) being professional

A: It's not...

(Just) writing crap (or not)

It actually is...

… a **community** of software professionals who:

Care, practice, learn & **share**

Software Crafting Community :-)
